Why Should You Attend Aquaculture Contact Forum?

With regard to the **Turkish Aquaculture sector**, a collaborative effort between the **Norway East CCI Office** and the **Samsun Chamber of Commerce and Industry**, and supported by the Middle Black Sea Development Agency, the **Aquaculture Contact Forum**, organized by Octoaqua company (Turkey), is scheduled to be held in the city of Samsun on the dates of **September 13-14**. The forum aims to address technological and financial opportunities within the field of aquaculture.

The **Aquaculture Contact Forum** offers a significant opportunity for Turkish salmon and fish producers to acquaint themselves with innovative production methods, engage in the exchange of knowledge and experience, explore collaboration possibilities, and gain access to financial support options.

Topics to be covered include but are not limited to, the application of state of the art technologies that can provide solutions to the challenges faced by Turkish salmon and fish farmers in production. By introducing technologies to contribute to Turkish salmon and fish farming processes, **the aim is to reduce loss, increase yield and quality, and minimize the negative impact on environment.**
